EXPERIENCE

Document Control Management - Technip Energies (Jan 2023 - Oct 2024)

Managed and integrated extensive engineering databases, ensuring regulatory compliance and version control for all project phases. Created Power BI dashboards to streamline project tracking and reporting.

Developed metadata systems for technical documents, optimizing nomenclature alignment across internal and client platforms.

Coordinated documentation workflows within Microsoft 365, MS Teams and EDMS systems, enhancing collaboration across global teams.

Document Control Management - SII Concatel (Oct 2020 - Jan 2022)

Gathered requirements and designed functional solutions for technical documentation management in the Digital Education Plan of Catalonia.

Mapped network data (Ekahau, Aruba Central) and classified technical blueprints, integrating metadata into SharePoint, Excel and Power BI.

Created detailed reporting and analysis processes to monitor project progress and network infrastructure.

ICT Specialist Technician - Institut Municipal d'Informàtica (Feb 2020 - Sep 2020)

Reviewed and integrated fiber optics metadata into geospatial APX-GIS plans, ensuring high precision in network infrastructure updates.

Conducted data analysis and database management to optimize operational accuracy and metadata quality.

Product Analyst - Sanyan Appliances (May 2018 - Jul 2019)

Analyzed logistics data to improve Amazon supply chain operations and enhance marketplace integration. Evaluated advertising campaigns and user experience using data mining techniques, driving efficiency in operational processes.

Delivered actionable insights through the application of predictive models.

Data Analyst - Indra Sistemas (Nov 2017 - May 2018)

Conducted data analysis and entry to optimize internal processes for governmental electronic regulations. Application of electronic regulations and data privacy protocols aligned with Ministry of Energy, Tourism, and Digital Agenda specifications.

Data Management Specialist - Healthcare - Conselleria de Sanitat (2011 - 2017)

Document digitization, management, and integration of medical databases in hospitals and health centers. Optimization of admission processes, emergency services, and surgical waiting lists, ensuring compliance with electronic regulations and data privacy protocols.

EDUCATION

Data Science Mastery - DS4B (2024)

- Fundamentals of Data Science: Python, statistics, numpy, pandas.
- Business Analytics: advanced analytical techniques, insights generation, business case construction.
- Machine Learning: algorithms, model training, creation of data apps, high-performance predictive systems, forecasting.

IBM Data Science Professional Certificate (2024)

Databases, data visualization, statistical analysis, predictive models, machine learning algorithms, Python, SQL.

Datahack - PowerBI / SQL Server (2024)

DAX, MS PowerBI, MS SQL Server, data visualization, Python, T-SQL.

BSc Psychology (2019- 2025)

Universitat Oberta de Catalunya. Research on intellectual giftedness and cognitive neuroscience.

Plan to pursue a Master in Bioinformatics in 2025.

BSc Computer Science (2012- 2014, Inc.)

Universitat d'Alacant. High Academic Performance Group.

LANGUAGES

Advanced English · Native Spanish · Advanced Catalan

ADDITIONAL INFORMATION

- Over 30 years of experience in IT (advanced user, self-taught).
- Professional experience in administrative, documentation, and IT roles.
- Early adopter: Generative AIs (Stable Diffusion, ChatGPT, Copilot, Apple Intelligence...).
- Planning
